Education

Purdue University, West Lafayette, IN — Currently Enrolled

- Bachelor of Science in ***Planetary Sciences*** — **Expected May 2026**

Experience

Undergraduate Research — *Purdue | January 2026 – Current*

- Conduct literature review on lunar volcanism to support mission-relevant research under Prof. Briony Horgan.
- Compile published datasets to create a geospatial map of volcanic features in the South Pole-Aitken Basin.

Undergraduate Teaching Assistant — *Purdue | August 2024 – Current*

- Working under the guidance of Prof. Andrew Freed to support courses EAPS 105: The Planets & EAPS 106: Geosciences in the Cinema, serving over 4,000 students each semester.
- Collaborate with a team of 6-7 TAs to manage class communications and student engagement.
- Assist with student inquiries, grading, and logistical coordination for large-scale lecture courses.
- Develop professional communication and organizational skills in a fast-paced academic setting.

Undergraduate Research — *Purdue | August 2023 – Dec 2024*

- Investigated impact crater samples in a geology laboratory by measuring their properties, including porosity and density.
- Gained hands-on experience operating laboratory equipment such as Hydrogen Pycnometer, rock coring machine, and other laboratory equipment.
- Applied principles of geoscience to understand physical properties of planetary materials.

Highschool Intern — *Indianapolis Children's Museum | 2021 - 2022*

- First high school intern at the museum, leading to the creation of a program for high school students.
- Contributed to projects by conducting research, creating and organizing educational materials, and updating website content.
- Enhanced time management and collaboration skills while contributing to museum education programs.

Barista — *Starbucks | 2020 – 2024*

- Earned Starbucks "Coffee Master" certification and title for expertise in coffee craft.
- Trained new partners and maintained consistent product quality during high-volume hours.
- Developed strong teamwork, multitasking, and communication skills in a fast-paced environment.

Skills & Technical Proficiency

- Technical Skills
  - *Python*
  - *JMARS*
  - *IDL* and *ENVI*
  - *ArcGIS Pro*
- *Microsoft Office* Applications
  - *Excel, Word, PowerPoint*
- *OSHA* Certified
- Languages: *English & Italian*
- Critical Thinking and Problem Solving
- Time management
- Adaptability
- Communication skills
- Attention to Detail
